

To Whom It May Concern:

Deadline Express have been using Hometune since September 2007, and have found the service to be excellent.

The key to our business relationship has been convenience; they come to where we need them, when we need them. The flexibility of having a technician on site to talk to about maintenance requirements has been extremely convenient, on top of that we don't have people running around the countryside picking up and dropping off cars all day.

We have found their response time to be very quick and their technicians efficient and very knowledgeable.

We look forward to continuing our business relationship with Hometune.
